The Barclays Bank Group is subject to risks arising from changes in credit quality and recovery rates for loans and advances due from borrowers and counterparties. Market risk is the risk of loss arising from potential adverse changes in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.

- **Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital to support its normal business activities and to meet its regulatory capital requirements under normal operating environments and stressed conditions; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "**Resolution Authority**") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.
- **Operational and model risks:** Operational risk is the risk of loss to the Barclays Bank Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the potential for adverse consequences from decisions based on incorrect or misused model outputs and reports.

Compliance, reputation, legal risks and legal, competition and regulatory matters and financial crime risk: Compliance risk is the risk of poor outcomes for, or harm to, customers, clients and markets, arising from the delivery of the Barclays Bank Group's products and services (Compliance Risk) and the risk to the Barclays Bank Group, its clients, customers or markets from a failure to comply with the laws, rules and regulations applicable to the firm (LRR risk). Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and/or competence. The Barclays Bank Group conducts diverse activities in a highly regulated global market which exposes it and its employees to legal risk arising from (i) the multitude of laws, rules and regulations that apply to the activities it undertakes, which are highly dynamic, may vary between jurisdictions and/or conflict, and may be unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet applicable laws, rules, regulations or contractual requirements or to assert or defend their intellectual property rights. Legal risk may arise in relation to any number of the material existing and emerging risks summarised above. Financial crime risk is the risk that the Barclays Bank Group and its associated persons (employees or third parties) commit or facilitate financial crime, and/or the Barclays Bank Group's products and services are used to facilitate financial crime.

KEY INFORMATION OF THE SECURITIES

What are the main features of the Securities?

Type and class of Securities being issued and admitted to trading, including security identification numbers

The Securities will be in the form of notes and will be uniquely identified by: Series number: NX00473249; Tranche number: 1; ISIN: XS3025721864; Common Code: 302572186.

The Securities will be cleared and settled through Euroclear Bank S.A./N.V. and/or Clearstream Banking, *société anonyme*.

Currency, specified denomination, issue size and term of the Securities

The Securities will be issued in EUR (the "**Issue Currency**") and settled in the same currency (the "**Settlement Currency**"). The Securities are tradable in nominal and the specified denomination per Security is EUR 1,000. The issue size is up to EUR 100,000,000. The issue price is 100.00% of the Specified Denomination.

The issue date is 30 June 2025 (the "**Issue Date**"). Subject to early termination, the Securities are scheduled to redeem on 14 July 2028 (the "**Scheduled Settlement Date**").

Rights attached to the Securities

Potential return: The Securities will give each holder of Securities the right to receive potential return on the Securities, together with certain ancillary rights such as the right to receive notice of certain determinations and events and the right to vote on some (but not all) amendments to the terms and conditions of the Securities. The potential return will be in the forms of: (i) a Final Cash Settlement Amount, provided that if the Securities are early terminated, the potential return may be in the form of an Early Cash Settlement Amount instead.

Taxation: All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted.

Events of default: If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 calendar days, or, in the case of interest has not been paid within 14 calendar days of the due date), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the holder.

Limitations on rights:

Early redemption following certain disruption events or due to unlawfulness or impracticability: The Issuer may redeem the Securities prior to their Scheduled Settlement Date following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, or if it determines that an unlawfulness or impracticability event has occurred. In such case, investors will receive an "**Early Cash Settlement Amount**" equal to the fair market value of the Securities prior to their redemption.

Certain additional limitations:

- Notwithstanding that the Securities are linked to the performance of the Underlying Asset(s), holders do not have any rights in respect of the Underlying Asset(s).
- The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, to monetise the securities, to postpone or obtain alternative valuation of the Underlying Asset(s) to postpone scheduled payments under the Securities, to change the currency in which the securities are denominated, to substitute the Underlying Asset(s), to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the Underlying Asset(s).
- The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law

The Securities will be governed by English Law and the rights thereunder will be construed accordingly.

Description of the calculation of potential return on the Securities

Underlying Assets: The return on and value of the Securities is dependent on the performance of the following Underlying Asset(s):

Underlying Assets _(Final Settlement)	Type	Initial Price _(Settlement)	Initial Valuation Date
S&P 500 Index	Index	The closing level of the Underlying Asset on the Initial Valuation Date	30 June 2025

For the purposes of determining the Final Cash Settlement Amount, Underlying Assets shall mean the Underlying Assets_(Final Settlement).

Calculation Amount: Calculations in respect of amounts payable under the Securities are made by reference to the "**Calculation Amount**", being EUR 1,000 per Security.

Determination Agent: Barclays Bank PLC will be appointed to make calculations and determinations with respect to the Securities.

A – Final Settlement

If the Securities have not otherwise redeemed, each Security will be redeemed on the Scheduled Settlement Date by payment of the Final Cash Settlement Amount.

The Scheduled Settlement Date may be postponed following the postponement of the Final Valuation Date due to a disruption event.

- (i) The Final Cash Settlement Amount is calculated as follows as the sum of: the Protection Level (being 100.00%) multiplied by the Calculation Amount,

PLUS

- (ii) if:

- the Final Performance is greater than or equal to the Upper Strike Percentage (being 100.00%), an amount equal to the product of the Calculation Amount and the greater of (I) the Floor (being 0.00%) and (II) the lesser of (1) the Cap_(Settlement) (being 12.00%) and (2) the Participation_(Settlement) (being 100.00%) multiplied by the amount equal to the Final Performance *minus* the Upper Strike Percentage (being 100%); or
- otherwise, zero.

Where:

"**Final Performance**" means the Final Valuation Price divided by the Initial Price_(Settlement)

"**Final Valuation Date**" means 30 June 2028, subject to adjustment.

"**Final Valuation Price**" means, in respect of the Underlying Asset, the closing level in respect of the Underlying Asset on the Final Valuation Date.

Status of the Securities

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of Irish Stock Exchange Trading plc as Euronext Dublin.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **You may lose some or all of your investment in the Securities:** Investor are exposed to the credit risk of Barclays bank PLC. As the securities do not constitute a deposit and are not insured or guaranteed by any government or agency or under the UK Government credit guarantee scheme, all payment or deliveries to be made by Barclays Bank PLC as Issuer under the Securities are subject to its financial position and its ability to meet its obligation. The Securities constitute unsubordinated and unsecured obligation of the Issuer and rank *pari passu* with each and all other current and future unsubordinated and unsecured obligations of the Issuer. You may also lose some or all of your investment if: (a) you sell your Securities before their scheduled maturity or expiry; (b) your Securities are early redeemed in certain extraordinary circumstances; or (c) the terms and conditions of your Securities are adjusted such that the amount payable or property deliverable to you is less than your initial investment.
- **There are risks associated with the valuation, liquidity and offering of the Securities:** The market value of your Securities may be lower than the issue price since the issue price may take into account the Issuer's and/or distributor's profit margin and costs in addition to the fair market value of the Securities. The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Asset(s) at the relevant time, changes in interest rates, the Issuer's financial condition and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity or expiry of the Securities and other factors. The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption.
- **You are subject to risks associated with the determination of amount payable under the Securities:**

The Final Cash Settlement Amount is based on the performance of the Underlying Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities). This means you may not benefit from any movement in level of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance as at the final valuation date.

As the Final Cash Settlement Amount is subject to a cap, the value of or return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.

The calculation of amount payable depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities. This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest or coupon payments and/or could lose some or all of your investment.
- **Your Securities are subject to adjustments and early redemption:** Pursuant to the terms and conditions of the Securities, following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, the Determination Agent or the Issuer may take a number of remedial actions, including estimating the level of the Underlying Asset(s), substituting the Underlying Asset(s), and making adjustments to the terms and conditions of the Securities. Any of such remedial action may change the economic characteristics of the Securities and have a material adverse effect on the value of and return on the Securities. If no remedial action can be taken, or it is determined that an unlawfulness or impracticability event has occurred, the Issuer may early redeem the Securities by payment of an Early Cash Settlement Amount. If early redemption occurs, you may lose some or all of your investment because the Early Cash Settlement Amount may be lower than the price at which you purchase the Securities, or may even be zero. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk.
- **Settlement is subject to conditions and may be impossible in certain circumstances:** Payment of the amount payable to you will not take place until all conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments, and the date of settlement could be delayed accordingly.
- **Risks relating to Underlying Asset(s) that are equity indices:** Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. Equity indices may comprise index components of different types of asset classes. Each type of asset class may have a different set of valuation methodology and extraordinary events that differ from the other types of components within the index methodology and, in certain case, the determination agent may require to determine the price, value, level or other relevant measures of such component by adopting a valuation methodology and making reference to a price source it deems appropriate or using the other applicable fallback valuation methodologies. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.
- **The Underlying Asset(s) are 'benchmarks' for the purposes of the EU Benchmarks Regulation (Regulation (EU) 2016/1011, as amended):** Pursuant to the EU Benchmarks Regulation, an Underlying Asset may not be used in certain ways by an EU supervised entity after 31 December 2025 if its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity). If this happens, a disruption event will occur and the Securities may be early redeemed. Further, the methodology or other terms of an Underlying Asset could be changed in order to comply with the requirements of the EU Benchmarks Regulation, and such changes could reduce or increase the level or affect the volatility of the published level of such Underlying Asset, which may in turn lead to adjustments to the terms of the Securities or early redemption.
- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.
- **Potential conflicts of interest:** Conflicts of interest may exist where Barclays Bank PLC or its affiliate: (i) acts in multiple capacities with respect to the Securities (e.g. acting as issuer, manager and determination agent) (ii) enters into hedging transactions to cover the Issuer's exposure to the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due; and (iii) uses price contributions from its trading desks as a pricing source for an Underlying Asset. In light of such conflicts, the actions taken or determinations made by Barclays Bank PLC in relation to the Securities may not always be in the best interest of the holders. In addition to hedging transactions, Barclays Bank PLC may trade on the Underlying Asset(s) in the ordinary course of its

business. Such trading could affect the market price of the Underlying Asset(s), which may in turn materially adversely affect the value and return on your Securities.

Risco de mercado é o risco de perda decorrente de uma potencial alteração adversa no valor dos ativos e passivos do Grupo Barclays Bank devido à flutuação das variáveis de mercado.

- **Risco de tesouraria e de capital e o risco de o Emitente e o Grupo Barclays Bank estarem sujeitos a poderes de resolução substanciais:** Há três tipos primários de tesouraria e risco de capital enfrentados pelo Grupo Barclays Bank, que são: (1) risco de liquidez - o risco de que o Grupo Barclays Bank seja incapaz de cumprir as suas obrigações contratuais ou contingentes ou que não tenha o montante de financiamento e liquidez estáveis adequados para suportar os seus ativos, que também podem ser afetados por alterações de notação de crédito; (2) risco de capital - o risco de que o Grupo Barclays Bank tenha um nível ou composição de capital insuficiente para suportar as suas atividades comerciais normais e para satisfazer os seus requisitos regulamentares de capital em condições normais de funcionamento e em condições de tensão; e (3) risco de taxa de juro na carteira bancária - o risco de que o Grupo Barclays Bank esteja exposto à volatilidade do capital ou dos rendimentos devido a um desfasamento entre as exposições às taxas de juro dos seus ativos e passivos (não negociados). Ao abrigo da Lei Bancária de 2009 (*Banking Act 2009*), são concedidos poderes substanciais ao Banco de Inglaterra (ou, em certas circunstâncias, ao Tesouro do Reino Unido (*HM Treasury*)), em concertação com a Autoridade de Regulamentação Prudencial do Reino Unido (*United Kingdom Prudential Regulation Authority*), a Autoridade de Conduta Financeira do Reino Unido (*UK Financial Conduct Authority*) e Tesouro do Reino Unido, como parte de um regime de resolução especial. Estes poderes permitem ao Banco de Inglaterra (ou a qualquer sucessor ou substituto deste e/ou outra autoridade no Reino Unido com a capacidade de exercer o Poder de Fiança do Reino Unido) (a "**Autoridade de Resolução**") implementar várias medidas de resolução e opções de estabilização (incluindo, entre outros, o instrumento de fiança) no que respeita a um banco ou empresa de investimento do Reino Unido e algumas das suas subsidiárias (à data do Documento de Registo, incluindo o Emitente) em circunstâncias em que a Autoridade de Resolução considera que estão preenchidas as condições de resolução pertinentes.
- **Riscos operacionais e de modelo:** O risco operacional é o risco de perda para o Grupo Barclays Bank devido a processos ou sistemas inadequados ou falhados, fatores humanos ou devido a eventos externos em que a causa principal não seja devida a riscos de crédito ou de mercado. O risco de modelo é o potencial para consequências adversas de decisões baseadas em resultados e relatórios de modelo incorretos ou mal utilizados.
- **Riscos de compliance, de reputação, jurídico e de medidas legais, de concorrência e regulamentares e riscos de crimes financeiros:** O Risco de compliance é o risco de se apurarem maus resultados ou danos para os consumidores, clientes e mercados, decorrente do desempenho dos produtos e serviços do Grupo Barclays Bank (Riscos de Conduta) e risco do Grupo Barclays Bank, consumidores, clientes ou mercados de uma falha no cumprimento das leis, regulamentos e regras aplicáveis à empresa (risco LRR). Risco de reputação é o risco de que uma ação, transação, investimento, evento, decisão ou relação comercial reduza a confiança na integridade e/ou competência do Grupo Barclays Bank. O Grupo Barclays Bank conduz atividades diversas num mercado global altamente regulamentado que o expõe a riscos legais decorrentes (i) da multiplicidade de leis, regras e regulamentos aplicáveis às atividades que assume e desenvolve, que são altamente dinâmicas, podem variar e/ou conflitar entre jurisdições, e podem ser pouco claras na sua aplicação a circunstâncias particulares, especialmente em áreas novas e emergentes; e (ii) a natureza diversificada e evolutiva dos negócios e práticas comerciais do Grupo Barclays Bank. Em qualquer caso, o Grupo Barclays Bank fica exposto ao risco de perda ou à imposição de sanções, danos ou multas pelo fracasso dos membros do Grupo Barclays Bank em cumprir as leis aplicáveis, regras, regulamentos ou obrigações contratuais ou para reivindicar ou defender os seus direitos de propriedade intelectual. O risco legal pode surgir em relação a uma série de fatores de risco materiais existentes ou emergentes, resumidos acima. O risco financeiro é o risco de o Grupo Barclays Bank e as pessoas associadas ao mesmo (trabalhadores ou terceiros) cometerem ou facilitarem a prática de crimes financeiros e/ou de que os produtos e serviços do Grupo Barclays Bank serem utilizados para facilitar a prática de crimes financeiros.

Quais são os principais riscos que são específicos aos Valores Mobiliários?

Os Valores Mobiliários estão sujeitos aos seguintes riscos:

- **Poderá perder parte ou a totalidade do seu investimento nos Valores Mobiliários:** Os investidores são expostos ao risco de crédito do Barclays Bank PLC. Como os Valores Mobiliários não constituem um depósito e não estão segurados ou garantidos por qualquer governo ou agência ou ao abrigo do esquema de garantia de crédito do Governo do Reino Unido, todos os pagamentos ou entregas a serem feitos pelo Barclays Bank PLC como Emissor ao abrigo dos Valores Mobiliários estão sujeitos à sua posição financeira e à sua capacidade de cumprir as suas obrigações. Os Valores Mobiliários constituem obrigações não subordinadas e não garantidas do Emitente e classificam-se *pari passu* com cada uma e todas as outras obrigações actuais e futuras não subordinadas e não garantidas do Emitente. Mesmo que os seus Valores Mobiliários sejam reembolsáveis ao par, poderá perder até ao valor total do seu investimento se o Emitente falhar ou for incapaz de cumprir as suas obrigações de pagamento ou entrega. Poderá também perder parte ou a totalidade do seu investimento se: (a) vender os seus Valores Mobiliários antes do seu vencimento ou expiração previsto(a); (b) os seus Valores Mobiliários forem antecipadamente resgatados em determinadas circunstâncias extraordinárias; ou (c) os termos e condições dos seus Valores Mobiliários forem ajustados de forma a que o montante a pagar ou os bens que lhe podem ser entregues sejam inferiores ao seu investimento inicial.
- **Existem riscos associados à avaliação, liquidez e oferta dos Valores Mobiliários:** O valor de mercado dos seus Valores Mobiliários pode ser inferior ao preço de emissão, uma vez que o preço de emissão pode ter em conta a margem de lucro e os custos do Emitente e/ou do distribuidor, para além do justo valor de mercado dos Valores Mobiliários. O valor de mercado dos seus Valores Mobiliários pode ser afetado pela volatilidade, nível, valor ou preço do(s) Ativo(s) Subjacente(s) no momento relevante, alterações nas taxas de juro, a condição financeira e cotações de crédito do Emitente, a oferta e a procura dos Valores Mobiliários, o tempo restante até ao vencimento ou expiração dos Valores Mobiliários e outros fatores. O preço, caso exista, a que poderá vender os seus Valores Mobiliários antes do vencimento pode ser substancialmente inferior ao montante inicialmente investido. Os seus Valores Mobiliários podem não ter um mercado de negociação ativo e o Emitente pode não estar sujeito a qualquer obrigação de fazer um mercado ou recomprar os Valores Mobiliários antes do resgate. O Emitente pode retirar a oferta pública a qualquer altura. Nesse caso, se já tiver pago ou entregue dinheiro de subscrição dos Valores Mobiliários relevantes, terá direito ao reembolso desses montantes, mas não receberá qualquer remuneração que possa ter acumulado no período entre o seu pagamento ou entrega de dinheiro de subscrição e o reembolso dos Valores Mobiliários.
- Está sujeito a riscos associados à determinação de montante a pagar ao abrigo dos Valores Mobiliários:

Para receber o montante mínimo previsto no vencimento, deve mantê-los até ao vencimento. Se os Valores Mobiliários forem resgatados antecipadamente, podem devolver menos do que o montante mínimo previsto, ou mesmo zero.

- O Montante de Jurossó é pago se o desempenho do(s) Ativo(s) Subjacente(s) estiver dentro de um intervalo especificado. É possível que os critérios de desempenho não sejam cumpridos e que não receba qualquer juro durante todo o período de vigência dos Valores Mobiliários.
- **Os seus Valores Mobiliários estão sujeitos a ajustes e resgate antecipado:** De acordo com os termos e condições dos Valores Mobiliários, após a ocorrência de determinados eventos de perturbação ou eventos extraordinários relativos ao Emitente, os seus acordos de cobertura o(s) Ativo(s) Subjacente(s), a tributação ou a moeda relevante dos Valores Mobiliários, o Agente de Determinação ou o Emitente podem tomar uma série de medidas corretivas, incluindo a estimativa do nível do(s) Ativo(s) Subjacente(s), substituindo o(s) Ativo(s) Subjacente(s), e fazer ajustamentos aos termos e condições dos Valores Mobiliários. Qualquer uma dessas medidas corretivas pode alterar as características económicas dos Valores Mobiliários e ter um efeito adverso material sobre o valor e retorno dos Valores Mobiliários. Se não for possível tomar medidas corretivas, ou quando se determine a verificação de um evento de ilegalidade ou de impraticabilidade o Emitente pode resgatar antecipadamente os Valores Mobiliários mediante o pagamento de um Montante de Liquidação Antecipada em Dinheiro. Se ocorrer resgate antecipado, poderá perder parte ou a totalidade do seu investimento porque o Montante da Liquidação Antecipada em Dinheiro poderá ser inferior ao preço pelo qual adquiriu os Valores Mobiliários, ou poderá mesmo ser zero. Também perderá a oportunidade de participar em qualquer desempenho positivo subsequente do(s) Ativo(s) Subjacente(s) e não poderá realizar quaisquer mais-valias potenciais no valor dos Valores Mobiliários. Poderá não ser capaz de reinvestir os lucros de um investimento com um retorno comparável e/ou com uma taxa de juros ou cupão comparável para um nível de risco semelhante.
- **A liquidação está sujeita a condições e pode ser impossível em determinadas circunstâncias:** Pagamento do montante a pagar não ocorrerá até que todas as condições para a liquidação tenham sido cumpridas na íntegra. Nenhum valor adicional lhe será pago pelo Emitente relativo a qualquer atraso ou adiamento. Podem ocorrer determinados eventos de perturbação da liquidação que poderiam restringir a capacidade do Emitente para efetuar pagamentos, e a data da liquidação pode ser adiada em conformidade.
- **Risks relating to Underlying Asset(s) that are equity indices:** Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. Equity indices may comprise index components of different types of asset classes. Each type of asset class may have a different set of valuation methodology and extraordinary events that differ from the other types of components within the index methodology and, in certain case, the determination agent may require to determine the price, value, level or other relevant measures of such component by adopting a valuation methodology and making reference to a price source it deems appropriate or using the other applicable fallback valuation methodologies. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.
- **O Ativo Subjacente é um “benchmark” para efeitos do EU Benchmarks Regulation (Regulation (EU) 2016/1011, tal como segue:** De acordo com o EU Benchmark Regulation, um Ativo Subjacente pode não ser usado por uma entidade EU supervisionada em determinadas situações a partir de 31 de Dezembro de 2025 se o seu administrador não obtiver autorização ou um registo. Se tal acontecer, um disruption event ocorrerá e os Valores Mobiliários podem ser terminados antecipadamente. Além do mais, a metodologia ou outros termos do Ativo Subjacente poderiam ser modificados para que cumpram os requisitos do EU Benchmarks Regulation. Essas alterações poderiam reduzir ou aumentar o nível ou afetar a volatilidade do nível publicado do Ativo Subjacente o que pode levar a um ajustamento dos termos dos Ativos Mobiliários.
- **Riscos de Tributação:** Os níveis e a base de tributação sobre os Valores Mobiliários e quaisquer reduções de tal tributação dependerão das suas circunstâncias individuais e poderão mudar a qualquer momento ao longo da vida dos Valores Mobiliários. Isto poderá ter consequências adversas para si, pelo que deverá consultar os seus próprios consultores fiscais quanto às consequências fiscais que lhe serão aplicáveis e que decorrem das transações que envolvem os Valores Mobiliários.

• Potenciais conflitos de interesses: Podem existir conflitos de interesse onde o Barclays Bank PLC ou a sua afiliada: (i) atue em múltiplas capacidades em relação aos Valores Mobiliários (por exemplo, atuando como emitente, gestor e agente de determinação); (ii) realize transações de cobertura para cobrir a exposição do Emitente aos montantes em numerário relevantes a pagar ou ativos a entregar ao abrigo dos Valores Mobiliários à medida que estes se vençam; e (iii) utilize as contribuições de preços das suas mesas de negociação como fonte de preços para um Ativo Subjacente. À luz de tais conflitos, as ações tomadas ou determinações feitas pelo Barclays Bank PLC em relação aos Valores Mobiliários podem não ser sempre no melhor interesse dos titulares. Para além das transações de cobertura, o Barclays Bank PLC pode negociar no(s) Ativo(s) Subjacente(s) no curso normal dos seus negócios. Tais transações podem afetar o preço de mercado do(s) Ativo(s) Subjacente(s), o que, por sua vez, pode afetar de forma materialmente adversa o valor e o retorno dos seus Valores Mobiliários.
