- With the option of one of the following offers:
- 1 Smoke detector, or
 - 1 Photovolumetric Sensor, or
 - 3 Magnetic Detectors for opening doors and windows - Shock Sensor

Control Panel

A portable device developed with the latest technological advances. It has an SOS button, 112 Emergency and silent listening option. It is permanently connected to the Alarm Receiving Centre via 3G.

Key reader + 6 Keys

Enables the alarm to be activated and deactivated without the need to memorise codes.

Magnetic detector for opening doors and windows - Shock Sensor

High sensitivity sensor, detector for opening doors and windows. Thanks to the Shock Sensor technology, the alarm is activated in the event of an attempted intrusion.

Photovolumetric Sensors

Motion detectors with camera and flash, which send images to the Securitas Direct Alarm Receiving Centre in the event of an intrusion.

Siren

The alarm goes off and the high-powered siren is activated. The siren is an independent device from the alarm control panel, which makes it difficult for thieves to override it.

Deterrent Signs

Securitas Direct signs let burglars know that the house is protected and in case of intrusion their image will be recorded and sent to the police.

Sentinel Anti-inhibition Alarm (equipment only valid in mainland Portugal)

The Sentinel Anti-Inhibition Alarm from Securitas Direct is a security service that ensures your protection and well-being: it is always connected, even if the alarm is deactivated, ensuring that you are safe in your home. Sentinel not only protects you from theft with the inhibitor, it also looks after your comfort by detecting possible risks and emergencies in your home, monitoring the temperature, humidity and air quality at all times. It also incorporates an SOS button with which you can immediately contact Securitas in case of emergency.

You can also check your comfort levels (temperature, humidity and air quality) at any time on the My Verisure App.

The Sentinel Anti-Inhibition Alarm is only valid in mainland Portugal. On the Madeira and Azores Islands it is replaced by one of the following equipments at the customer's choice: 1 Remote Control or 1 Photovolumetric Sensor or 1 Magnetic Detector for opening doors and windows - Shock Sensor.

S.O.S Remote Control

The remote control alarm allows you to check the status of your alarm, see what has happened in your absence or activate/deactivate the alarm. In case of an emergency, you can use the remote alarm to send an S.O.S. request to the Securitas Direct Alarm Receiving Centre, which will provide all the necessary assistance by sending emergency services.

Smoke Detector

This device warns you of the presence of smoke in your home environment. As soon as the detector is triggered, a signal is sent to the Securitas Direct Alarm Receiving Centre which will assess and check out the situation before the emergency services are sent. Once the danger of fire has been detected, our professionals will contact you to inform you of the situation and possible solutions.

Services Included

24-hour connection to the Alarm Centre

Voice and Image Verification

PhotoDetector

112 Button

Entry and exit monitoring

Electricity cut-off warning

Security Guard service*

CCTV on the My Verisure App

S.O.S for emergencies

Maintenance included and software update

* Securitas Direct Security guard service

Securitas Direct Security guard service

Double and faster intervention by Guard + Police

It ensures that the security guard is dispatched and that the police forces are notified, should the situation require it.

Fast response

It ensures the geolocation of the security guards and of the protected site, reducing response time and increasing efficiency.

Police Cooperation and Monitoring during the intervention

The security guard informs you of what has happened without you having to physically go to your home.

Detailed information in a timely manner and without hassle

The security guard keeps the ARC informed of what is happening in real time, so they can inform you immediately.

Note: This service is not available in the Bragança, Guarda and Vila Real districts.

Loyalty Period

The contract with Securitas Direct will have a minimum term of three years. After this term, it will be automatically renewed for successive periods of 1 (one) year, unless terminated by either party.

Note: After the 3-year loyalty period, the customer will pay directly to Securitas Direct the following amount: € 41.82 (VAT included).

Extra Equipment

Should it be necessary to place extra equipment on the installation site, its purchase will be agreed directly with the Securitas Direct technician. As a BPI Customer, you benefit from a 50% discount on the company's RRP.

Securitas Home Solution Brochure

Offer

When purchasing a 2nd alarm, whether a Home or a Business solution, BPI Customers benefit from a 50% discount on the equipment. The customer needs to have acquired the first alarm within the last 3 months through BPI at the normal RRP.

In situations where a Company wishes to contract a new Alarm and its Partner/Representative has already subscribed to an alarm for private use (or vice versa), the discount of 50% on the equipment is also applied, as long as the conditions are met. It will also be necessary to provide the necessary proof (Important note: At the time of contracting, indicate the TIN associated with the alarm already installed).

After the Alarm Installation, and provided that all requirements are met, Securitas will directly reimburse the customer the value of the 50% discount on the total value of the equipment. For the Home Solution, the amount to be reimbursed will be €199.5, for the Business Solution it will be €229.5.

Financing Conditions

Purchase this Security Solution through the BPI Personal Loan, at a fixed APR of 0%, with steady monthly payments, under the following conditions:

RRP	Initial Fee	Amount Financed	No. and Monthly Rate	Opening Costs *	Total Amount Charged to the Consumer	EAPR
1,904.52	32.52	1,872.00	36 x 52.00	85.82	1,957.82	3.1%

Amounts in EUR

* Breakdown of Opening Costs

Stamp Duty/ Usage	Credit Opening Fee	Stamp Duty

49.42	35.00	1.40
-------	-------	------

Amounts in EUR

There are other BPI Credit Solutions available in this campaign. Campaign limited to the existing stock.

The Total Amount Charged to the Consumer and the EAPR shown assume that the consumer has an open account with the Bank for more than 30 days and include an opening credit fee and the respective taxes.

Before taking out your Loan, clear up any doubts, read the contract and the specific financing conditions carefully and make sure that the instalments are adequate for your monthly budget. Find out more information at your local Branch or Premier BPI Centre.

Warranty

The warranty period of the equipment and installation is two years. This warranty covers, on the equipment, any manufacturing defect that may affect its correct operation. In relation to installation and software, any implementation defects that prevent the system from functioning correctly.

This warranty does not cover any damages and losses resulting from malicious action, negligence or improper handling by the CUSTOMER, their employees or third parties. Nor damages and losses caused by natural disasters, inclement weather, etc.

Delivery, Cancellation and Returns

The Security Solution will be installed at the location indicated by the Customer within 72 hours after contact by Securitas Direct. This contact will be made after the respective credit to or debit from the card account has been made available.

Note: exceptionally, and should the Customer require delivery and installation later than 72 hours, this request may be granted, provided that it does not exceed a maximum period of 3 months.

You can withdraw from your purchase up to 14 days after the date of delivery of the product ordered. In this case, the return of the product can be made free of charge. To do so, you must return the product with the original invoice and packaging, all complete and in perfect condition, to a BPI Branch or BPI Premier Centre. You can also return it directly to the Supplier at the address shown here. In this situation, BPI guarantees the return of the amount by credit

Clarifications and Complaints

Requests for clarification or the lodging of complaints must be addressed directly to the Supplier, through the contacts shown here.

In the event of a dispute, the consumer may resort to one of the following entities for Alternative Resolution of Consumer Disputes:
